

Are you a Savvy Shopper?

Can you spot a bargain from fifty paces or do you get bamboozled by offers, sales and multi-buys? Take a look at the offers below and decide what is the best deal.

1. Your favourite snack costs 50p per packet, but a multiple pack of 10 cost £4.50 which is the best deal?

- Buying individually
 Buying a multipack

2. You want to subscribe to an online streaming service that costs £27 per month at the normal price. Which of the following offer is the best value?

- 1 Month free trial and then eleven payments of £27
 10% off for 12 months
 12 month pass for £299

3. You visit a toy shop to buy a teddy bear for your baby sister, you have £10 to spend. The teddy bear costs £10, but has a number of offers available. Which one is the best value for money?

- Buy one get one half price
 Buy one get one free
 40% off

4. It's a hot summers day, you and your three friends, decide to buy some ice-creams. Which offer represents the best value for money? You have £5 to spend. Each ice-cream costs £1.00.

- Buy one get one half price
 Buy 4 ice-creams get 30% off
 Special offer: £3.50 for 4 ice-creams

5. You have decided to go to the theme park for the day with your brother / sister, you have £5 each to spend on the rides, all rides are 2.50p per go.

- Three rides for the price of two
 5 Ride pass for £8
 Special offer: 30% off all rides

Answers: 1. Buying a multipack (45p per packet); 2. 10% off for 12 months; 3. Buy one get one free would give you two teddies at £5 per teddy but if you only need one teddy then the best value is 40% off, or £6 for a single teddy; 4. Buy 4 ice-creams, get 30% off; 5. 3 rides for the price of 2 would give each of you 3 rides for your five pounds (£1.67 per ride) but technically the cheaper cost per ride is the 5 ride pass costing £1.60 per ride but one of you would only get two rides.
